Dear Resident:

The **Town of Ridgeland** is seeking funding through the **Community Development Block Grant (CDBG) Program** for a proposed **Water System Study**. The **Lowcountry Council of Governments** is assisting the Town with determining whether the proposed project meets CDBG eligibility requirements.

One of the requirements for CDBG funding is that a majority of the persons who would benefit from the proposed project are low-to-moderate income. To determine eligibility, the Town is conducting an income survey of **residential customers who receive water service from the Town of Ridgeland but are located outside the Town limits**.

Please complete this survey if you receive water service from the Town of Ridgeland and your residence is located outside the Town of Ridgeland municipal limits.

Please complete the survey using **one** of the following methods:

- **Return** the completed survey to **Ridgeland Town Hall**, 1 Town Square, Ridgeland, SC.
- **Mail** the completed survey to **Lowcountry Council of Governments, Community & Economic Development Department (Town of Ridgeland Water System Study)**, P.O. Box 98, Yemassee, SC 29945.
- **Complete the survey by telephone** by calling **(843) 473-3989**.
- **Complete the survey online** by scanning the QR code below using your smartphone or tablet.

The income information collected is **strictly for the purpose of determining whether the Town is eligible for CDBG funding** and will remain confidential. Individual survey responses will not be released or used for any other purpose.

Please base your answer to the income question on the **total annual household income of all persons living in your household**.

If you have any questions regarding the survey or proposed project, please contact the **Lowcountry Council of Governments** at **(843) 473-3989**.

Thank you for taking the time to complete this survey. Your participation is an important part of helping the Town of Ridgeland determine whether it is eligible to apply for CDBG funding for the proposed Water System Study.
